

About Us

Our 30 Years of Success is the result of focusing on client needs and using our industry experience and technological knowhow to provide optimal support, fit, function, and price. By consistently providing solutions, on-time, within budget, and as planned, we have proven time and again that we are the best at what we do.

Our Clients are located across the country, varying in size and services, from a single Taft-Hartley fund to a large regional multi-fund office. Each office operates uniquely and requires careful attention to details to satisfy that client's needs.

Our Consultants have seen many changes in the industry over the years and are diligent in pursuing the highest level of service and support for all our clients.

Our Culture is characterized by resourcefulness, close customer focus, flexibility, and dependability. Beyond that, we are punctual, professional, and courteous.

FAMS is the complete Taft-Hartley funds office solution.

It is a well tested, modular workhorse that can easily accommodate the needs of a single Taft-Hartley fund to a large regional multi-fund office.

“JBM is the only vendor you will ever need.”

“The real question today is who will bring the greatest overall value to your fund management system needs? Technology is great, but if it's expensive, slow to implement, and difficult to use then it's of little or no value to you, your staff and members. Fund Managers are looking to provide the best possible benefits to their members where it gives them peace of mind. Our FAMS products and combined services do just that. You have everything to gain by giving us a call so we can show you and your staff how to benefit from working with JBM – we're real people solving real problems for our clients for over 30 years.”

- Joe Grey, President of JBM Computer Consultants, Inc.

Fund Administrator's Management System

FAMS is deployed on fast, reliable IBM® Power Systems and is the heart that drives our fund management products and services.

Modular in structure, FAMS software satisfies even the most complex Taft-Hartley Fund Office requirements.

Standard configuration modules provide:

Office Automation

- Funds Definition
- Member & Employer General Administration
- Multiple Fund Accounting
- Contributions Accounting
- COBRA Administration

Health and Welfare Administration

- Eligibility Definition
- Claims Processing
- Third-party Billing Coordination
- HIPAA Compliance

Retirement Administration

- Annuity — Defined Contribution
- Pension — Defined Benefit
- Retirement Planning
- Contribution Disbursements

Additional Integrated Solutions

- Vacation Administration
- Actuarial and Legislated Reporting

Whether you are thinking of upgrading hardware or software in your business or figuring out how to comply with the latest regulation, JBM has the experience and technology to offer you a complete fund office solution.

Companion Products

Product options make possible complex fund office workflows. These include:

Website Integration

Are your members ready to access their benefit fund account information 24/7? JBM experts can make it possible for your members to see their fund accounts from their home computers via a secure web connection to your fund office website. Just as easily an employer can enter remittance data to save time and improve accuracy.

Document Imaging and Storage

Have you ever lost an important document to later find it stuck between something long after you need it? Document imaging can help eliminate the hassles of dealing with documents lost or strayed. Documents can be easily captured and securely stored for ready retrieval, display, or printout. FAMS makes it easier to link members and employers using 21st century paperless office technology.

Electronic Forms and Checks

Why purchase costly printed forms that need to be completed manually? You can print your own pre-filled with the required information. You can also print checks on a laser printer when you need them, one at a time or by the thousands.

Third-party Software Integration

JBM experts can seamlessly integrate your custom accounting software or other software with our FAMS solution. If you don't see something you want listed here, just let us know: we've probably already provided it for one of our clients.

Partners & Vendors

The key to developing great products is to build close relationships with industry leaders like IBM®, Dell®, and Microsoft®.

We stay on top of the industry to make sure you never fall behind in your technology investments by providing:

- reliable laptop and desktop computers
- fast networking components
- secure Internet access
- leading application, eMail, web, and file servers
- smart desktop office suite software

*Work with our experienced team
to build a FAMS solution
that's right for you!*

Key Services

We provide the following services to bring your system on line in a reliable, timely and cost effective way:

Data Migration

JBM experts can safely and completely move your data from any system, be it "home grown" or from another vendor, to your FAMS solution.

System Management

Whether you have a down network printer or a complete regional failure, JBM support experts keep your office up and running 24/7.

Consulting Services

Do you need your existing system evaluated? Do you need to keep your old system working pending a FAMS replacement? Do you need a custom FAMS module created? These are just a few of the needs JBM expert consultants can provide.

Development of a Self-Hosted Website

Does your office need a web presence? Do you need to update or replace an existing website for strict security and compliance requirements? Do you need a state-of-the-art, self-hosted website? Do your members need to securely access their information via a password-protected, encrypted data link? JBM experts have setup many clients with every level of web technology available today.

Software Customization

FAMS comes with almost every fund office requirement built in, but may need minor customization to work in harmony with your fund office. No problem. We can even create new custom modules to suit your office processing as needed.

Workflow Management

Our FAMS modules are tightly integrated. JBM has the experience to insure all your workflow is seamless and efficient from beginning to end.

Training and Support

Certainly your staff is well trained in Taft-Hartley fund office procedures. We make sure they stay that way with training on FAMS. JBM experts are always only a phone call away to answer your questions.

Security and Privacy

All too often we hear of data breaches. No one wants to tell their members their personal information has been compromised. JBM experts can execute a comprehensive, HIPAA-compliant security plan to ensure data integrity and member privacy.
